

TUNNEL HORROR AT CLEVELAND

Five Men Suffocated and Three Drowned in a Crib Disaster.

CAUGHT IN A TRAP

Another Shift of 20 Men in Crib Are Saved, with One Dead.

FIRE WAS THE CAUSE

Cleveland, Aug. 14.—Five men were suffocated in the new water works tunnel and three were drowned early this morning.

Crib No. 2 of the tunnel caught fire and was destroyed.

Three gangs of tunnel workmen who live at the crib were caught like rats in a trap and either had to jump into the lake and possibly drown, or perish by suffocation.

One shift was asleep in the crib when the fire broke out and of this number eight perished and twenty-two were rescued. Some were badly burned.

Another shift of thirty men was at work in the tunnel which is supplied with air from the crib and it is impossible to tell yet whether the air remained pure enough to sustain life or whether the men were suffocated.

The rescue party got into the tunnel shortly before nine and found one of the men dead. The others were taken out and revived. The cause of the fire is a mystery. The property loss is placed at \$300,000.

CRANBERRY MEN AT GRAND RAPIDS

Wisconsin Association Begins Annual Convention at Cranmoor—Crop May Be 40,000 Barrels.

Grand Rapids, Wis., Aug. 14.—The Wisconsin State Cranberry Growers' association held its fifteenth annual meeting today at Cranmoor, with about 400 in attendance. The morning was spent in inspecting the improvements in the Grainer marsh, which was more fortunate than the majority of Wisconsin marshes in regard to winter killing. The afternoon business session was called to order by President Brier of Grand Rapids, who gave a short address of welcome. The report of Statistician W. H. Fitch of Cranmoor was presented, and from the information collected the prospects so far indicate that the yield will be 40,000 barrels.

FRIARS ARE IN AN UGLY TEMPER

Circular Issued by Catholic Priests at Manila Denounces the United States Government.

Manila, Aug. 14.—The friars have issued a circular to the public through the Centro Caolico in which they anathematize the government in the disguise of an eloquent and passionate appeal to Catholics. The circular says that Governor Taft has declared war against God and it denounces the members of the Philippine commission as four rickety brawlers. The occasion for this is said to be that in a recent local dispute in Tarlac City Governor Taft issued a proclamation to the effect that he neither desired to nor could he interfere in religious questions, reminding the persons involved of the separation of church and state.

The pamphlet calls the government buffoons, talkative pygmies, vile persecutors, and pusillanimous politicians who are seeking to overthrow the church under the guise of a pernicious liberty, and are trying to eclipse the sun of the moral world. It calls on Catholics morally to unite against this infamous and irreligious government.

WINTERS STOLE OVER \$300,000

San Francisco, Aug. 14.—Jack Winters, the bullion thief, now declares he was offered \$50,000 to confess. The revision of the company's books shows the total amount stolen to be \$320,000 instead of \$280,000. It is believed that Winters has hidden some of the loot in other places than those pointed out by him.

STOLEN DIAMONDS RECOVERED

Two Men Arrested in Denver Charged With Robbing Jeweler.

Denver, Col., Aug. 14.—George Skinner, aged 21, and Robert Shuler, aged 20, both residents of Allentown, Pa., have been placed under arrest in this city charged with robbing the jewelry store of Leonard G. Seifing of Allentown, of \$5,000 worth of diamonds. About \$4,500 worth of the gems have been recovered by the police. The authorities of Allentown have been apprised of the arrest and have asked the police to hold the men until officers can arrive with requisition papers.

H. M. FLAGLER GETS DIVORCE.

"King of Florida" Is Freed from His Insane Wife.

Miami, Fla., Aug. 14.—Henry M. Flagler today obtained a divorce from his insane wife. The suit by which Mrs. Flagler was put aside by her multi-millionaire husband and in planning which years had been spent was disposed of in a jiffy. The case was heard by Judge Minor S. Jones of the Circuit court, sitting in chambers. The Standard Oil magnate, who is so mighty in his state as to be known as the "King of Florida," was represented by former Supreme Court Judge George P. Raney, who is accredited with engineering through the Florida Legislature the bill in the interest of Mr. Flagler by the provisions of which insanity for four years' standing is made sufficient grounds for divorce. Former Governor Fleming, who had been appointed guardian for Mrs. Flagler, represented the defendant as a matter of form. There was practically no defense, and the decree was handed down today. Mr. Flagler, in his seventy-second year, is once more free to marry again if he chooses. It has been persistently reported for more than a year that as soon as he obtained his divorce he would make a very young woman, a southern girl of excellent family, his wife.

STATION AGENT IS A RAVING MANIAC

Discovers Too Late That He Has Sent Trains to a Collision—Attempts Suicide When Disaster Came.

Omaha, Neb., Aug. 14.—James Greene, station agent and telegraph operator at Otho, Ia., gave out his orders this morning which sent out two trains toward each other on the same track; then realizing his mistake, his mind gave way, and he is a raving maniac, confined in a baggage room and prevented by his friends from killing himself.

The mistake caused a collision which wrecked two engines but cost no lives. It was the suspense and mental agony of waiting, after he realized his error, for the disaster which he had caused and which he could not prevent, that shattered Greene's mind. He is being kept under the influence of chloroform. In the hope that his reason may return after a period of insensibility, but the physicians in charge of the case do not hold out much encouragement.

Greene does not know what happened when the trains met. In the moments when the effects of the chloroform wears away he raves, striving in every way to prevent the wreck, fighting for a chance to reach his telegraph instrument, and pleading with those who restrain him to permit him to die.

SUNDAY SCHOOL WORKERS MEET

Bishop Fallows Speaks at the Assembly's First Session at Camp Epworth, Near Rockford.

Rockford, Ill., Aug. 14.—The first session of the Sunday School Workers' assembly, which is to be held annually at Camp Epworth preceding the camp meeting of Rockford district of the Rock River conference opened yesterday with an excellent attendance. The principal exercise of the day was a flag raising by the old soldiers of the vicinity, Captain Morris of Marengo being in charge. An important feature was an address by Bishop Samuel Fallows of Chicago. Last night Presiding Elder F. A. Hardin delivered the address of welcome.

The assembly is to continue through the week.

HAD A LIVELY DAY AT CAMP DOUGLAS

Second Wisconsin Infantry Drills, Troop "A" Is Inspected, and Battery "B," Maneuvers.

Camp Douglas, Wis., Range, Aug. 14.—The Second Battalion of the Second Regiment fired on the ranges today. Highest score, 229. The volley fire score was 78. The two other battalions practiced battalion drill, extended order drill, and outpost duty.

Troop "A" was inspected by Adjutant General Boardman, Captain Chinoweth, U. S. A., Colonel Salsman, and Colonel Falk. The order was school of the troop, formation, and extended order drill.

Battery "A" maneuvered in school of battery on the run before General Boardman and Colonel Falk without a break this morning. This afternoon the battery took target practice, firing with three and a half inch guns at 2,000 yards, nine rounds, percussion shells. There were no direct hits, but the target was damaged from close hits.

Blazing Timber in Northwest.

Vancouver, B. C., Aug. 14.—The forest fires which annually destroy thousands of dollars' worth of property are now raging on the British Columbia coast. Reports from the up coast state that several small islands have been completely denuded of trees and the wood is so dry that fires on the mainland, once started, spread with great rapidity.

STRANGE WOMAN KIDNAPED CHILD; COMPLAINT OF MRS. ETTA KRUSE

Janesville People Who Adopted a Baby from the Children's Home Society Have Had the Child Stolen—Strange Case of Abduction.

A week ago last Monday, July 29th, a case of kidnapping took place at the Chicago, Milwaukee & St. Paul passenger depot. The facts were unknown to the police and to no one outside of the interested parties until last night when word was received here of the matter.

Mrs. Etta Kruse, who adopted a babe in a Milwaukee foundling home and then had it taken away from her after four years was seen by a Gazette reporter.

In company with Chief of Police John W. Hogan the reporter called upon Mrs. Kruse, who is the wife of Charles Kruse, superintendent of the detention hospital in the Third ward. Both Mr. and Mrs. Kruse had retired for the night, but they soon put in an appearance. When questioned about the affair Mrs. Kruse stated that nearly four years ago, when she was a resident of Mineral Point, Wis., she adopted a nine weeks' old boy, which she received from Mr. Woodmansee of the Children's Home society of Wisconsin at Wauwatosa. The child was delivered to her in Janesville and she took him to Mineral Point and later brought him to Janesville. Mr. and Mrs. Kruse named the boy Willie Kruse. The papers accompanying him from Mr. Woodmansee stated that he was one of a pair of twins.

Mrs. Kruse brought up the boy with as much care as though he had been of her own flesh and blood. She became greatly attached to him and was thankful for adopting him.

On July 29th, a boy came to Mrs. Kruse's house and told her that she was wanted at the depot. She was alone at the time, so she dressed Willie and took him with her.

On arriving at the depot Mrs. Kruse says she was met by two ladies, both of whom were strangers to her. One of the ladies gave her name as Marion. The other she did not know. They informed Mrs. Kruse that they had come for the boy for the purpose of taking him to the family that had his twin and that he would be happier there than at his present home.

Mrs. Kruse did not want to give up the child but one of the women grabbed the boy away from her and carried him to the train, and that was the last Mrs. Kruse saw of him. Mrs. Kruse said they had intended taking out regular papers of adoption but had neglected to do so. She has written to the superintendent of the home and implored him to return the child to her again, but she claims that he said she did wrong when she released the boy to the two unknown women. Mrs. Kruse regards the affair as a clear case of kidnapping and from her statement of the facts that view of it would be the correct one.

LATE CORN CROP IN GOOD CONDITION

Government Report Shows Improvement in the Mississippi and Missouri Valleys.

Washington, Aug. 14.—The weekly crop report issued today by the weather bureau shows that late corn has experienced material improvement in the states of the Mississippi and Missouri valleys and in Kentucky and Tennessee. With favorable temperature conditions in September the yield in the Missouri valley will be larger than indicated by previous reports. In Ohio, Indiana and Southern and Central Illinois the condition of the crops has further deteriorated, especially in Southwestern Ohio. In the Atlantic coast districts corn has made excellent progress.

In the middle Atlantic states and New England tobacco has made favorable progress, except in portions of Maryland where the crop in the lowlands has been injured by too much rain. In Kentucky and in portions of Tennessee the crop has greatly improved, but in Southwestern Ohio it has been seriously damaged by drought.

All reports from districts east of the Rocky mountains indicate an extremely light and inferior apple crop.

Wisconsin conditions are reported as follows: Week cool, with copious rains in central and northern sections; dry weather continues in southern counties; corn making excellent progress in southern counties, where badly injured by drought; grain in stack and threshing under way; wheat and barley yield well, oats light; potatoes good except in dry sections; tobacco improving, but crop generally light.

OPEN SHOOTING SEASON NOT ON

The Law Prohibiting Game Birds Has Not Been Changed—The Season Opens on Sept. 1.

Madison, Wis., Aug. 14.—A number of state papers are publishing an erroneous statement to the effect that the open season for woodcock, peafowl, prairie chicken, prairie hen, grouse, plover and snipe, begins Aug. 15, and State Game Warden Henry Overback is daily receiving dozens of letters asking if the statement is true. The law protecting this class of birds has not been changed and the season does not open Sept. 1, as usual. Anyone who takes these birds before that time is liable to a fine of from \$10 to \$50, or by imprisonment in the county jail for a period not to exceed ninety days. No Mongolian, Chinese or English pheasants or quail of any variety can be taken until two years from Sept. 1 next.

The game warden is receiving a large number of inquiries regarding the hunting of rabbits and squirrels. From these inquiries it would seem that it is not generally known that a license fee of \$1 is required of all persons taking these animals. Dogs may be used, and when they are not, the license is required just the same.

Dig Up \$32,000 Spanish Gold.

Meridian, Miss., Aug. 14.—News has been received in the city of the finding of \$32,000 in Spanish gold specie buried in a chest about five miles from Portersville. Copeland, the leader of a notorious band which once had its rendezvous in this section, is believed to have buried his wealth here. Another sum of more than \$50,000 is believed to be buried in Sucunoches swamp.

FAMOUS EXPLORER HAS PASSED AWAY

Baron Nordeoskold, Well Known Swedish Geologist and Naturalist, Dead at Age of 60.

Stockholm, Aug. 14.—Baron Adolf Erik Nordenskiöld, the celebrated Swedish explorer, geologist, and naturalist, died here last evening, aged sixty years. His last days were spent in collecting and revising his scientific works, which are considered among the most important books in geographical literature. Baron Nordenskiöld, although at one time very wealthy, is said to have died comparatively poor. He was an intimate and cherished friend of King Oscar.

Baron Nordenskiöld was one of the greatest of naturalists who was second to none among the most successful of scientific arctic explorers. He was born in Helsingfors, the capital of Sweden, of a well known Swedish family which had been famous for its scientific men for generations.

SLUM CHILDREN GET AN OUTING

Poor People from Milwaukee Will Enjoy the Pleasures of Camp Cleghorn.

Waupaca, Wis., Aug. 14.—For the next two weeks, Camp Cleghorn, three miles from this city, on the Chain of Lakes, will be the scene of much hilarity and childish enjoyment. Today there arrived from Milwaukee 100 orphans from the slums and twenty-five mothers from the same districts. They are under the charge of eight deaconesses who accompanied them from Milwaukee and will look after them during their stay. The Wisconsin Central railroad gave the entire company free transportation and the State association of the I. O. G. T. has donated the use of their grounds at Camp Cleghorn. People of the surrounding country will furnish food and clean clothing for the assemblage.

AMERICAN WANT'S \$35,000.

Dr. A. F. Conroy Has a Bill for Losses in the Boer War.

London, Aug. 14.—At yesterday's session of the South African compensation commission Newton Crane, a London barrister, presented the claim of Dr. A. F. Conroy of Chicago, who asks damages from the British treasury to the amount of £7,000 (\$35,000).

Mr. Crane stated that Dr. Conroy went to South Africa as a physician of the Red Cross society and that he served impartially among the Boers and English. He was arrested at Brandwacht and sent to Pretoria and thence to Europe. He claimed the £7,000 damages for losses sustained by him; the British having seized his horses, mules, wagons and medical and hospital equipment.

Sir John Adagh, the representative of the foreign office, contended that Dr. Conroy's expedition was composed of men who threw away their Red Cross badges and joined the fighting Boers.

Professor J. E. Lough, who for four years has been professor of psychology at the Wisconsin State Normal School at Oshkosh, has resigned that position to accept a similar one with the University of the City of New York.

Louis F. Stewart, aged 15, was killed while juggling cars at Randolph, Ill.

BANDITS HOLD UP TRAIN.

Five desperadoes Loot Cars on the M. & T. Road.

Caney, Ind. T., Aug. 14.—Passenger train No. 4 on the Missouri, Kansas and Texas Railroad was held up about 1 o'clock this morning near this city by five bandits, who, after blowing up the strong box in the express car, robbing the occupants of the passenger coaches and doing considerable other damage, escaped with a small sum of money. How much booty the robbers got is not definitely known, but it is not thought that it was a large amount, for the American Express Company's safe in the express car did not contain much, and officials are inclined to believe that the desperadoes made a mistake in their train.

Soon after train No. 4, the "Katty Flyer," which usually carries a big safe in the express car and a large number of through passengers, arrived. It is the general belief here that the robbers had planned to hold up this train.

When the robbers left the train it proceeded southward. Notification being given the marshal at this city, a posse was organized, which started out after the robbers. Up to a late hour today, however, nothing has been discovered, to serve as a clue to the bandits, or where they went.

WEATHER SIGNALS TO HELP FARMERS

Weather Bureau Forecasts Will Be Displayed on the Rural Free Delivery Carts.

Washington, Aug. 14.—Farmers living along the lines of rural free delivery mail routes are to have the advantage of the United States weather bureau's forecasts of the weather. All they will have to do is to watch the mail cart as it goes by. Arrangements are being made by the postoffice department and the weather bureau to have the mail carts equipped with signals that will be displayed on the sides. They will be as conspicuous as possible so they can be read at a considerable distance from the highways.

Mail carriers will receive their weather predictions for the day before they start out on their routes in the morning, and will put up the proper signals on both sides of their carts.

TOBACCO TRUSTS IN ONE COMBINE

The Consolidated Company Absorbs the American and the Continental—A Big Mortgage.

New York, Aug. 14.—Facts concerning the consolidation of the tobacco interests of the country became public today through the filing in Jersey City of a mortgage for \$150,000,000 made by the Consolidated Tobacco Company of America to the Morton Trust company of New York, to secure an issue of bonds not to exceed \$150,000,000. The mortgage is dated June 15 and the delay in filing it has caused comment. The mortgage bore war tax stamps to the extent of \$75,000. If the mortgage had been drawn after June 30 this enormous tax would have been avoided, because the tax on mortgages was repealed on that day.

The papers show that the Consolidated Tobacco company has absorbed the American, the Continental and subsidiary concerns.

POPULATION IS NOW 38,641,333.

French Census Shows Increase of Only 412,364 in Five Years.

Paris, Aug. 14.—The official final census returns show the population of France to be 38,641,333, an increase in the last five years of 412,364. The increase is mainly in urban centers. Twenty-eight departments show an increase and fifty-nine a decrease. The census figures include the troops in China and the sailors of the navy and merchant marine absent from France March 24.

FIRMLY BOUND BY AGREEMENT

Western Steel Men Will Not Reconsider Their Refusal to Strike.

BLOW TO SHAFFER

Strikers Have Made Gains, But the Mill-Owners Are Still on Top.

GOOD ORDER EXISTS

Pittsburg, Aug. 14.—President Schaffer has heard from the Chicago and Bay View, Milwaukee, steel men. The western men will not reconsider their refusal to strike. They consider themselves firmly bound by their agreement with their employers.

Schaffer says he cannot decide on what is to be done in the matter until he receives a report from his assistant secretary, who is now in Chicago.

Two hoop mills were started at the Painter plant this morning. The police anticipated trouble at this plant and extra precautions were taken to quell any disturbances. Result in the Balance.

Neither side moved decisively today in the great conflict between employers and employees in the steel trade, and the result is still in the balance. The strikers made gains at Pittsburg, McKeesport, Wheeling and Bellaire in the last twenty-four hours, but in the main the advantage is still with the mill owners. Both sides claim to be preparing moves that will bring confusion to opponents, but neither side has yet shown its hand.

Thousand More Men Out. McKeesport, Aug. 14.—The employees of the Butt Weld and Lap Weld departments of the National Tube works, about one thousand in number, came out this morning, completely tying up the big plant. The best of order prevails.

Bellaire Mills Closed.

Bellaire, O., Aug. 14.—The Bellaire mill is closed today. No attempt was made to start up this morning. The union is now in complete control of the situation here. The officials of the plant say it will be closed until the strikers are hungry and when it starts it will be non union.

Schaffer at Wheeling.

Wheeling, Aug. 14.—The strike situation is unchanged today. No attempt is being made to start the idle steel plant and the indications are that none will be made as the steel trust cannot find boarding places for the non-union men. Schaffer arrived here this morning.

WILL NOW GO TO SUPREME COURT

Bill of the Portage Levee Commissioner Not Audited by the Secretary of State.

Madison, Wis., Aug. 14.—The bill of the Portage levee commissioners for \$150 for Engineer Smith's services, approved by Gov. La Follette, was today formally refused audit by Secretary of State Froelich on the ground of the attorney general's opinion that the law is invalid. The matter will now go to the supreme court.

Force to Patrol Islands.

Washington, D. C., Aug. 14.—Plans for policing the Philippines with an insular constabulary numbering about 10,000 men have almost been completed by the Philippine commission. This force will be available in case of riots and will make it possible to reduce the strength of the army in the island.

MRS. CATHERINE ALDEN ALDEN. Who Celebrated Her Ninetieth Birthday Anniversary Today.

NINETY YEARSON JOURNEY OF LIFE

BIRTHDAY CELEBRATION OF MRS.
CATHERINE A. ALDEN.

As Far as Known She is the Oldest
Woman in Janesville—She is One
of the Early Pioneers—Family Re-
union Held at the Home of Her
Daughter, Mrs. P. S. Fenton.

A birthday celebration quite un-
usual in its nature because compara-
tively few people live long enough to
make such an occasion possible,
was observed in a quiet but very in-
teresting manner in this city today.
The central figure was Mrs. Cath-
erine Alden, who arrived at the
ninetieth milestone on life's journey
today, and who, surrounded by rela-
tives and friends, spent one of the
happiest days in her long and useful
life.

So far as is known Mrs. Alden is
the oldest woman who makes Janes-
ville her home. If this distinction
does not belong to her there are cer-
tainly very few who have a better
right to it. She is also one of the
pioneers of the city, having resided
here for fifty-five years. She is well
known and highly respected and to-
day she was the happy recipient of
many hearty congratulations togeth-
er with souvenirs of a more sub-
stantial, though no more welcome,
nature.

The entire day has been devoted
to making it one of the most mem-
orable which Mrs. Alden has ever en-
joyed. This morning there was a
family reunion at the home of Mr.
and Mrs. P. S. Fenton, 125 Madison
street, Mrs. Fenton being Mrs. Al-
den's youngest daughter. All of
Mrs. Alden's living children, grand-
children and great grandchildren
besides other relatives, were
present, and at noon the repre-
sentatives of the four generations
gathered around the long dining
table and enjoyed dinner together
in honor of the day. There were about
twenty-five guests at the family
dinner.

This afternoon about forty of Mrs.
Alden's lady friends were invited to
spend a few hours with her at Mrs.
Fenton's home and the occasion was
a delightful one. The guests were
waited on at the door by little Miss
Reinette Smith of this city, and
Miss Pearl Alden of Chicago, great-
grandchildren of the guest of honor.
The afternoon was spent pleasantly
in reminiscences of days gone by and
as the enjoyable afternoon drew to a
close a dainty luncheon was served.
Mrs. Alden's granddaughters waiting
upon the table.

Mrs. Alden was assisted in receiv-
ing and entertaining her lady friends
by her daughters, Mrs. M. H. Gibbs,
Mrs. P. S. Fenton, and Miss Mary J.
Alden. Among the guests were sev-
eral ladies who have spent many of
Mrs. Alden's birthday anniversaries
with her, it having been an annual
custom with those ladies of the
neighborhood in which Mrs. Alden re-
sided for so many years to gather at
her home and celebrate the anni-
versary in an informal manner. This
year the circle was widened a little
and the anniversary will long be
remembered by all who participated
in its pleasures.

Notwithstanding her years, Mrs.
Alden is one of the brightest elderly
women in the city. She possesses
all her faculties to a remarkable de-
gree and enjoys the excellent health
that bears witness to the hardy Pur-
itan stock from which she came.
Mentally she is keen and alert and
her memory is rich with interesting
reminiscences. She has always been
able to read without glasses, al-
though she uses them, and her hear-
ing is quicker than that of most
younger people. Physically she is
able to get around with a great deal
of energy, although a sudden
and severe attack of illness several
weeks ago weakened her strength
considerably. She still insists on
doing a part of the housework and
each year she personally attends to
roasting the turkey and making the
old fashioned Indian pudding for the
Thanksgiving dinner at which she
entertains all the members of the
family according to the New Eng-
land custom.

Mrs. Alden began her life in Clare-
mont, N. H., on the fourteenth of
August, 1811. Her maiden name was
Catherine Alden, and she, as well
as her husband, was a descendant of
John and Priscilla Alden, of Puritan
fame. Mrs. Alden's lineage is by
no means an uncertain one but traces
back clearly in direct line. She is
the youngest and only surviving
daughter of Chester Alden and
Tryphena Warner, and the line con-
tinues backward through Chester's
father James, son of John, son of
Isaac, who was the oldest son of
Joseph Alden, the second son of the
Puritan youth and maiden whose
names were made immortal by Hen-
ry W. Longfellow, one of their de-
scendants, in his "Courtship of Miles
Standish." Mrs. Alden's husband
was also a member of the family
which traces its origin in America to
the last male survivor of those who
crossed the sea in the Mayflower and
signed the compact in her cabin in
1620. His line of descent from the
famous Plymouth Pilgrim was the
same as that of his wife until the
fifth generation. Then the division
comes, Mr. Alden's grandfather being
John, brother of Mrs. Alden's grand-
father, James.

Mr. and Mrs. Alden were married
at Claremont, N. H., May 1, 1837.

and Mr. Alden lived to celebrate his
golden wedding in this city. A curi-
ous fact concerning the marriage
was that the bride and groom were
doubly cousins. Their fathers, Levi
and Chester Alden, were first cousins
and their mothers, Boadicea and
Tryphena Warner were sisters. After
their marriage Mr. and Mrs. Alden
moved to New York where they re-
sided several years in Albany,
Syracuse and Scipio.

In 1846 they came to Wisconsin,
driving overland with an ox team
from Milwaukee to Janesville where
the family has resided ever since.
Mr. Alden was a brick maker by
trade and many of the older brick
buildings in this city are constructed
from brick which were made by his
hands. He owned and conducted a
brick yard almost up to the time
of his death Dec. 25, 1887. A short
time after coming here he built the
homestead at 256 North Bluff street,
where the family resided until about
eight years ago.

Mrs. Alden is one of the few sur-
viving representatives of the sev-
enth generation of the Alden family.

She is the oldest member of the
Congregational church of this city,
in point of years, and in length of
membership she is the second oldest,
having joined by letter from the
Claremont, N. H., Congregational
church, on Jan. 5, 1850. She was
the ninety-first person received into
the fellowship of the local church.
She was the mother of eight children,
five of whom survive. Two daughters,
Maria and Edith died while young,
and the eldest son, Albert W., was
killed by the cars in Chicago several
years ago. Those who survive are
Edward C. Alden, Mrs. M. H.
Gibbs, Mrs. P. S. Fenton and Miss
Mary Alden of this city, and Levi
K. Alden of Monticello, Wis. There
are eight grandchildren, Mrs. J. B.
Smith, Mrs. O. H. Brand, the Misses
Ada, Alice, Kathryn, and Josephine
Fenton of this city, and Frank A. Al-
den and Harry Alden of Chicago.
The great grandchildren are six in
number.

Mrs. Alden received many hand-
some presents and her host of
friends hope that she will continue
in her keen enjoyment of life for
many years to come.

CONFIDENCE GAME ON GROCERYMEN

How a Young Woman Obtained Some
Toothsome Delicacies With-
out Paying for Them.

More than one groceryman in this
city is the victim of as clever a
confidence game as was ever work-
ed on a shrewd business man. The
worker of the game was a young
woman who evidently had a great
longing for something good to eat
and was either not the happy pos-
sessor of the filthy lucre with which
to purchase the groceries or else was
one of that numerous army of peo-
ple who are constitutionally opposed
to paying for anything they can get
at the merchant's expense. At any
rate she knew how to get what she
wanted.

Her method of procedure was very
good. She called at the grocery
store late in the afternoon and told
the clerk who waited on her that
she was the hired girl in the em-
ploy of one of the best known fami-
lies in the city, a family whose cred-
it is unimpeachable. Her story was
that the lady of the house had unex-
pected company which had just ar-
rived and needed some things right
away for supper. She said the lady
had sent a big order by her but a
part of the goods with the bill for
the entire order could be delivered
the next morning when the bill
would be paid at the house. The
things which were needed that night
she would take with her as they
were in a great hurry for them.

She proceeded to give a long order
which included a sack of flour and
several bulky articles which were
to be delivered the next day. With
her she took smaller articles amount-
ing in value to between one and two
dollars. The scheme worked beau-
tifully, the clerk was attentive and
particular, the customer choosing
only the best, as of course, was
only to be expected, and everything
was lovely until the next morning.
When the balance of the order was
delivered the lady of the house
was much surprised and declined to
receive the goods saying that she
had not ordered them.

The delivery was surprised in
turn and returned to the store with
the goods, whereupon the proprietor
became interested. An investiga-
tion followed with the result which
of course every one foresees by this
time. The lady knew nothing what-
ever of the affair and the woman
who gave the order and secured the
goods in her name was not in her
employ. Practically the same
scheme was worked in more than
one instance, although the grocery
firms which suffered are not saying
very much about it, and each time
it succeeded through its plausibility.
Few grocers would risk displeasing
a good customer by refusing to fill
an order supposed to come from her
and it would be a rather difficult mat-
ter for the groceryman to keep posted

SINNISSIPPI CLUB HOME TOURNAMENT

Twenty-Seven Members Took Part in
the Qualifying Rounds Yester-
day Afternoon—The Scores.

Twenty-seven members of the Sin-
nissippi golf club took part in the
qualifying round of the home tour-
nament for members of the club yes-
terday afternoon.

The day was perfect for golf and
the grounds in fairly good shape.
The scores put up by the players
were not as good as was expected
considering the conditions.

The handicap and games commit-
tee had arranged liberal handicaps
for the players and the scores will
show that in most cases they were
about right. The highest net score
to qualify in the first eight was 91.
H. H. McKinney, Leo Brownell and
George Brownell tied on 91 and drew
lots for position in the first eight and
the place fell to McKinney. The
two Brownells dropped back into the
second eight.

In the second eight 94 was the
highest score to qualify, and in the
third eight 101. A. Harris 102, Ed.
Bauman 102, and H. V. Allen 105,
failed to qualify.

The best gross score was made by
Albert Schaller, who played scratch
and turned in a score of 89. The
best net score was made by Charles
Achterberg who turned in a card of
91 and had a handicap of 8 which
gave him a net score of 83.

The different classes will be pair-
ed off and the first round match play
will take place on Tuesday after-
noon, Aug. 27. The semi-finals will
take place on the following Tuesday
and the finals the next week.

The qualifying round for the Valen-
tine medal for ladies will be played
next week. It is expected that
quite a number of the lady members
of the club will enter this contest.
After the match yesterday an elab-
orate supper was served to those
present under the direction of Mrs.
A. J. Harris. The younger members
of the club acted as waiters and
gave excellent service. Later in the
evening Roy Carter presided at the
piano and all those who were so
inclined indulged in dancing. The
party broke up about 10:30 and all
voted the afternoon and evening a
success.

The scores in the qualifying round
and the names of those who qual-
ified in the different classes are as
follows:

WOMAN'S PICNIC AT BURR SPRINGS

About one hundred ladies attended
the picnic of the Woman's Mis-
sionary Societies, the Loman band and
the Covenant club of the Congrega-
tional church, at Burr's springs.
The societies united in accepting the
invitation of Mrs. Laura Burr to hold
the August meeting at her summer
home and the occasion was a most
enjoyable one. There was a brief
meeting in the afternoon at which
Mrs. Q. O. Sutherland presided and
Mrs. S. E. Hurlbut, of Chicago,
treasurer of the W. B. M. I., gave
an excellent and entertaining ad-
dress. About six o'clock a picnic
supper was served and the party
before the members of the party
extended a heartfelt vote of thanks
to Mrs. Burr for her cordial hospi-
tality which evidenced itself in the
many ways known only to a gra-
cious hostess.

CRISPI WAS RULED BY DONNA LINA

Donna Lina was Crispi's second-
wife, and he had abandoned
his first wife, who had faithfully ac-
companied him through the years of
his exile. He abandoned her to
marry Donna Lina, who when he met
her was a camp follower of the Sic-
ilian army. Crispi was arrested for
bigamy and compelled to quit the
cabinet.

Between Queen Margherita and
Donna Lina there has always been
bitter enmity. Their quarrel result-
ed in more than one Cabinet crisis.
Donna Lina sought to force her-
self upon the queen, and angered at her
inability to enter patrician society
forced Crispi, who was completely
her slave, to dismiss from office the
Mayor of Rome, the Duke of Tar-
lona, merely because the Duchess
had refused to accept the advances
of the Premier's wife in the draw-
ing room of the English Ambassa-
dor.

The climax, however, was reached
when King Humbert was compelled
by Crispi to confer upon him the
order of the Annunciation, the mem-
bers of which become, ipso facto,
cousins of the sovereign, this prerog-
ative extending to their wives, who
follow immediately the Princess of
the blood on all official occasions.

Mme. Crispi thus became officially
the cousin of Queen Margherita, en-
titled to remain seated in the royal
presence, and to be publicly saluted
with a kiss from the lips of her
Majesty.

QUIET WEDDING AT ST. MARY'S CHURCH

There was a quiet wedding at the
parsonage of St. Mary's church this
morning at 6 o'clock, when Rev.
Father W. A. Goebel united in mar-
riage Miss Josephine Shikenjanski
and Edwin H. Barker, both of this
city. The happy couple was attend-
ed by Mr. and Mrs. John Brennan,
Mrs. Brennan being a sister of the
bride.

Both bride and groom are well
known. The bride is an estimable
and attractive young woman whose
parents reside in the town of Rock.
She has many friends here where
she has resided for some time. The
groom is a traveling salesman and
has made this city his home for
many years. He is a genial young
man who is popular among a large
circle of friends and he will receive
their congratulations on the happi-
ness which has come to him.

Mr. and Mrs. Barker left this morn-
ing on the 6:55 train for Chicago
and after a brief wedding trip they
will return to this city to reside.
They will have the best wishes of a
host of friends.

LATE TELEGRAPHIC NEWS

GENERAL URIBE IS SLAIN

Reported Killed in Recent Fight in Venezuela.

GUERRILLA WARFARE REIGNS.

American Representative at Panama Fears for the City—Adherents of Dr. Sanclemente Arrested and Imprisoned on Suspicion of Intrigue.

New York, Aug. 14.—News reached here today from Colombia that General Rafael Uribe Uribe was killed in the battle of San Cristobal, Venezuela, on July 27. The commander fought with the Venezuelan troops against the Colombian invaders. El Conservador's authority for this report is a message sent by General Iguaran, in charge of the Colombian government forces at Rio Hocha, to the commander-in-chief at Barranquilla. The Colombians engaged in the fight at San Cristobal were led by Dr. Rangel Carballos. Much excitement was caused among the Colombians here by the report. The friends of General Uribe consider it significant that the Colombian government has not sent the news by cable to its representatives, for the Colombian consulate here has not been officially notified. While there is nothing definite on which to base a denial of the report the general's friends discredit it on the ground that several times during the rebellion a year ago General Uribe was declared killed in battle. No direct news has been received from General Uribe since June 15, when, it is said, he sailed from this city for Venezuela. Colombian officials said that he went there to secure aid from President Castro in the shape of arms and ammunition to continue the rebellion. Since then Dr. A. J. Estrepe, the diplomatic representative of the insurgents, has received indirect information that General Uribe reached Colombia safely and is fighting at the head of 15,000 men.

Robels Attack Towns.

Washington, Aug. 14.—The state department has received mail advices from three different quarters in Colombia, all showing revolutionary movements in progress and a rather serious condition of affairs. Both termini of the Panama Railway route were heard from. Consul-General Gaudier, writing from Panama as to a revolutionary attack on near-by towns, and Consul Malmros, at Colon, reporting that guerrilla fighting had been going on at different points between Colon and Panama. At the same time Minister Hart wrote from the capital of Colombia as to the arrest and imprisonment of prominent adherents of the former president, Dr. Sanclemente, as they were suspected of seeking to have the nationalist organization join with the liberals, who are said to be showing increased strength and activity in a revolutionary movement.

Empress Is Buried.

Potsdam, Aug. 14.—The remains of the dowager empress Frederick were interred today beside those of her husband in the mausoleum of Friedenskirche, near Potsdam. The procession was in every way grand and solemn. Behind the coffin marched the emperor with head erect and displaying the greatest self-possession and dignity, but his face was pale and sorrowful and he gazed straight forward in a serious manner. King Edward, who was on the emperor's left, walked heavily and evidently found the march fatiguing.

Turbines for Niagara.

London, Aug. 14.—A dispatch to the Daily Mail from Geneva says that electrical engineers of Zurich have obtained a contract to supply all the machinery for the new electric installation at Niagara falls. It will consist of eleven turbines of 55,000 horse power each. Mexico has also placed an order for an electric station of 100,000 horse power with the same firm.

Kruger's Heart Is Weak.

New York, Aug. 14.—Reports of Mr. Kruger's failing health are not authoritatively confirmed, says the Tribune's London correspondent. Specialists may be required for his injured eyesight, but feeble heart action is the real source of danger and cannot be guarded against.

12,000 Reindeer for Alaska.

St. Petersburg, Aug. 14.—News received here from Vladivostok says that Lieut. Wallace Berthoff of the United States navy has begun shipping 12,000 reindeer from Okhotsk ports to Alaska. The first shipment has gone by the steamer Progress.

Climber Killed in Alps.

Chamonix, Aug. 14.—While fourteen members of the Geneva Mountaineers' society were descending the Aiguille du Macul, a mass of rock fell and hurled one of the party, M. Porchet, down an ice couloir, or gorge. He died of his injuries.

Denmark Wants \$10,000,000.

Copenhagen, Aug. 14.—A new state loan of \$10,000,000 will, it is expected, be negotiated shortly. The government hopes for the assistance of American and French bankers in making the loan.

Tolstol Going to Crimea.

St. Petersburg, Aug. 14.—A dispatch from Moscow says Count Tolstol is going to the Crimea shortly. The ministry of railroads is placing a special car at his disposal.

A CONSUL MAY BE REMOVED

Charges Against British Official at New Orleans.

HIS ABUSE OF AMERICANS.

The State Department at Washington May Take Action Against Him—He Denies Utterances Denouncing Press and People of United States.

New Orleans, La., Aug. 14.—Arthur Van Sittart, British consul at this city, who is charged with having denounced the press and the American people in connection with the Mechanician explosion, was notified today that the Department of State might give his case some attention to see if his hostility to the American government and people did not render him persona non grata. Van Sittart denied the language attributed to him and said: "It is perfectly absurd, you know. I could not have said such a thing. I have had these things happen to me so often that it is getting to be a nuisance. Do you blame me for being gruff and sometimes even impolite to reporters when they go away and put such things in my mouth as these words? It is a shame, you know." The matter will not be allowed to rest, however. When Consul Van Sittart, during the Spanish war, made uncomplimentary and even hostile remarks about the American people, he got out of the difficulty by denying the remarks and placing his word against that of the reporter who interviewed him. This time, however, irritated by the Mechanician explosion, he became more angry and made the same remarks about America and Americans as those objected to. Several reporters separately and away from each other say they are willing to make affidavit to his language. It has also come out to-day that even in the transaction of consular business he has frequently treated his visitors to tirades against the American people, and that a number of business men are willing to testify to that effect. United States Senator Foster will call the attention of the department and ask for Van Sittart's removal. General Pierson, the Boer agent, through his attorneys, Clegg & Quintro, is determined to bring suit against Consul Van Sittart for the sum of ten thousand pounds. The action is the result of statements made by Van Sittart to the chief of police when the consul demanded to know why General Pierson had not been arrested in connection with the explosion of the Mechanician. The Mechanician has been repaired and will leave tomorrow, but probably with a short crew of muleteers. She will be docked, and thoroughly repaired in England after this trip to Africa.

Henry White has recovered from his fall and is once more on duty at Wisch's barber shop.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin. To have a smooth, soft skin, free from eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disagreeable pimples.

ETERNAL VIGILANCE IS THE PRICE OF A BEAUTIFUL COMPLEXION

when such remedies are relied on. Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disagreeing eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. IS A POSITIVE, UNFAILING CURE FOR THE WORST FORMS OF SKIN TROUBLES.

It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable. Bad blood makes bad complexions. S. S. S. purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body. If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

Morgan Is a Grandfather.

Great Neck, L. I., Aug. 14.—Mrs. Herbert L. Satterlee, daughter of J. P. Morgan, gave birth to a daughter at 1 o'clock p. m. at the family's summer residence, Orchard Point, near this village. News of the event was sent by telegraph this afternoon to relatives and intimate friends of the family, and in a few hours congratulations began to arrive. Inquiry at the residence resulted in a statement that Mrs. Satterlee and the infant were doing well.

Projects Vast Coal Trust.

Wheeling, W. Va., Aug. 14.—A third monster coal and coke combination is being arranged for a New York syndicate by T. Moore Jackson, by which eleven of the principal mines in the Clarksburg field will, on October 1, pass into the hands of one concern, to be known as the Clarksburg Coal Company. Over 20,000 acres of land, besides the most modern mines in the state, will be sold outright. The concerns entering into the combination are: The Pinnickinnick, Park, Interstate, Pursglove, Dixie, Onell, Clarksburg, Perry, Two Lick, Fleming and the Howard Coal & Coke Companies. The combination will practically wipe out all of the great coal lands available in the central part of the state.

In Hands of a Receiver.

New York, Aug. 14.—Justice O'Gorman has appointed O. F. Thomas, the treasurer of the General Carriage Company, the receiver of the property of that corporation in this state. The appointment follows the appointment of a receiver in New Jersey. The General Carriage Company has had a remarkable career as a corporation. It was capitalized at \$20,000,000, and at one time sold par, \$200 per share. It possessed a franchise which allowed it to operate upon any of the streets of the city. Among the stockholders were Richard Croker, Edwin Gould, Joseph Leiter, Gen. Samuel Thomas, Louis Wornser, Cyrus Field Judson and Edwin M. Post.

Opticians in Session.

Chicago, Aug. 14.—The fourth annual convention of the American Association of Opticians opened at the Sherman house with 150 delegates present from various sections of the country. A. J. Cross, president of the association, delivered the annual address of the organization. He referred to the advancement made in the profession during recent years, saying: "The glasses made prior to 1865 were crude affairs compared to our present ones. Even in the last five years, see what perfection in eyeglasses has been achieved."

SHERIFF RETURNS J.O. KIRKPATRICK

PRISONER CHARGED WITH STEALING \$30 FROM DR. MILLS.

He Returned to Stand Trial Without Compelling Maltress to Get Out Extradition Papers—Denies Committing the Theft, and Says He Can Prove His Innocence.

Sheriff Maltress returned home at 5:30 o'clock this morning from Watertown, S. D., having in charge, J. O. Kirkpatrick, who was arrested by the police of that city on a telegram from Chief Hogan asking that he be detained.

Sheriff Maltress left for Watertown Saturday night with a warrant for his arrest issued by Judge F. F. Field of the municipal court charging him with stealing \$30 in money from Dr. James Mills on August 6th.

The sheriff found Kirkpatrick in the custody of the police at Watertown, and had no trouble in inducing him to return to this city for trial without extradition papers.

The trip home was made without incident, and the young man was brought before Judge F. F. Field this morning. The complaint was read to him and he was told he could have an examination if he desired. He did not know what was meant by an examination and after having the proceeding explained to him he said he desired the examination which was set for Saturday morning at 10 o'clock. In default of \$800 bail he was committed to the Rock County Jail.

Kirkpatrick is a nice looking young fellow and would not be picked out for a crook. He denies committing the theft and thinks he can secure an acquittal on the charge.

The work of going through Dr. Mills' safe was evidently done by some one acquainted with the premises and on account of Kirkpatrick's familiarity with the office and his leaving the city so suddenly suspicion at once rested on him. He was traced to Evansville and from there to Watertown, S. D., where he was arrested.

**JAMES MULHALL
WILL BE PUNISHED**

The Man Who Operated the Fake Rock River Creamery in Hands of the U. S. Authorities.

James Mulhall, formerly of Chicago, who operated the Rock River Creamery Co. in this city, last spring under the name of Clark, is in the custody of the United States stands a good chance for spending several years in prison for obtaining money under false pretenses.

He operated in Philadelphia under the name of Davis, of the firm of Davis & Turner, and evidently came direct to this city from that place. When he left here he left some clothes at the Smith hotel where he boarded.

In the pocket of the vest some postal cards were found bearing the advertisement of Davis & Turner, of Philadelphia, and dated Feb. 20, 1901. He and his partner opened up their factory in the Kastner warehouse and could not have lost much time in looking for a place where they could swindle more people.

It is claimed that he left accounts in this state to the amount of \$10,000. His victims will be pleased to know that he stands a good show of serving a long term in prison and are sorry he was not caught out in this country.

FORTUNE GOES IN SMOKE.

Cigar Patrons Spend Considerable Cash in Janesville

But few people realize the fortunes that go up in smoke every day in the Bower City. During the past year the amount of cash expended at Grubb's for cigars alone would involve enough money to make a comfortable fortune.

More cigars are sold daily at Grubb's than you would imagine there were smokers in the city. Boxes of 50 and 100 cigars each are often handed out in quick succession and more quarters worth, 7 of any of the popular brands, than one could count. Grubb is making money on his cigars and saving many dollars yearly for every smoker.

Kirk Williamson's Wedding.

At half after six o'clock this evening the marriage of Miss Mary Kirk and George Williamson, both of this city will be solemnized at the home of the bride's mother, Mrs. Mary Kirk, 364 Glenn street. The nuptial knot will be tied in the presence of relatives and friends by Rev. J. L. Henderson, pastor of the Presbyterian church, who returned from his vacation today for the purpose of officiating at the marriage of one of the most loyal workers and popular young ladies in the parish.

After the wedding the newly married couple will leave for the east where they will enjoy an extended trip, returning to this city about the 15th of September.

Excursion to Madison.

The Janesville Machine Co. will hold their annual picnic at Esther Beach on the shores of Monona Lake at Madison, Saturday, Aug. 17th. Train leaves via Chicago & Northwestern Railway at 8 o'clock a. m. and returning leaves Madison at 7 p. m. An excellent band will accompany excursion. Everyone is cordially invited to attend and enjoy the bathing, boating, ball game, quoits, dancing pavilion, etc. Fare for the round trip, \$1.00. Very low boat rates for the day. For the accommodation of those who wish to visit the city of Madison train will run to C. & N. W. Ry. station.

Mr. and Mrs. F. S. Baines left this morning for Chicago to take the lake steamer, Northland, for an eastern trip. They will visit the Buffalo exposition and Niagara Falls.

TO BUILD A BIG BRIDGE AT BELOIT

Rapid Progress Made in Construction of the Beloit, Delavan Lake & Janesville Line.

The Beloit, Delavan Lake and Janesville Interurban road have an extensive piece of bridge building on their hands at Beloit, caused by the people's demanding that their line should take in both sides of the river before they would give them a franchise. The bridge will be nearly a quarter of a mile in length and will cost about \$15,000 to construct. It will extend from the Rosenblatt factory to the Fenton farm, taking a diagonal course across the river. It will be a pile bridge and an expensive one to take care of. The material for the structure has already been ordered and the construction will begin as soon as the material arrives.

The work on the roadbed south of Beloit has already commenced and it will be in every way equal to that of steam roads. There are some heavy grades and fills between Roscoe and Rockford, in one place a thirty foot embankment being required. The engineers are at work on the grades for the power houses and barns at Beloit.

**EVERYBODY SORRY
FOR GEO. HOBBS**

Young Man Arrested at Racine Married a Janesville Girl—He Was Well Liked Here.

George Hobbs, who was arrested at Racine on Aug. 12th, in company with R. B. Bardrobe, of Peoria, Ill., and William Walsh and R. B. Higgins of Milwaukee, for stealing copper wire from the Wisconsin Telephone company, did not come originally from this city as stated.

He came here from Chicago about a year ago and was employed by Foreman William Harter as a line man. He was a first-class workman and continued to work for the company under Foreman Harter in this city until this spring, when he was transferred to the Racine crew.

He was a well appearing young man who always kept himself up in good shape and was liked by the rest of the crew, among whom he was known as "the glasser."

While working in this city he was married to a daughter of Mrs. E. R. O'Neil, who resides at 5 South High street. His wife accompanied him to Racine when he went to that place and she still resides there. People in this city who were acquainted with the young man are sorry to hear that he has gone wrong.

CLAIMED BY DEATH.

Foley of this city and leaves to mourn for him one brother, John A. Mahoney, one sister, Mrs. M. J. Murphy, a half sister, Miss Katie Fleming, and two half brothers, Richard and Patrick Fleming. The remains will be brought to this city for interment.

Mrs. Rose Gibbons Funeral.

Funeral services in memory of Mrs. Rose Gibbons will be held from St. Mary's church tomorrow morning at 9 o'clock. Rev. Father W. A. Goebel officiating. At the close of the service the remains, accompanied by the members of the bereaved family, and a few friends, will be taken to Albany, Wis., on the 10:40 train. Interment will take place at Albany where the deceased woman resided for many years.

Had a Narrow Escape.

Harlow Face, the three year old son of George Face, had a narrow escape from fatal injury yesterday afternoon while playing around a well at the home of Albert J. Hinds, 162 Prairie Avenue. A scaffolding which had been erected over the mouth of the well in order to lift out the pump gave way, striking Face who was playing nearby was caught under the falling timbers. At the time the timbers fell he was lying on the ground in a sort of depression, which saved him from receiving the full force of the blow otherwise he would have been killed. As it was he received a bad cut on the top of his head and large bump on the back of it, and was insensible for some time.

Dr. Pember was called and took a number of stitches in the cut to close it. The child has a sore head today, otherwise appears to be all right.

THE ASSOCIATION

Stockholders of Rock County Building Loan & Savings Association Held Meeting Last Night.

At the office of the Bower City bank last evening the annual meeting of the stockholders of the Rock County Building, Loan and Savings Association was held. Although the reports of the secretary and treasurer, which were read and approved, showed the affairs of the association to be in excellent shape it was later decided to disband the association as soon as possible. No stock has been offered for sale for the past two years and it was considered to be to the best interest of all concerned to close out.

Four directors, whose terms had expired, were re-elected. They were Archie Reid, S. B. Lewis, C. E. Ranous and Walter Helms.

At the close of the stockholders' meeting the board of directors met and re-elected the old officers, as follows: President, S. C. Cobb; first vice president, P. J. Monat; second vice president, S. B. Lewis; secretary, Hiram D. Murdock; treasurer, Stanley B. Smith; attorney, Charles L. Fife. The office of second vice president is a new creation. The board of managers consist of the president, first vice president, secretary and directors C. E. Ranous and O. Reid.

**FIRST WRECK ON
THE SOUTHEASTERN**

The first wreck on the Janesville & Southeastern road in this section occurred this morning at the Northwestern crossing in Spring Brook. A freight train leaving the city at an early hour this morning for Chicago broke in two one car ahead of the caboose soon after leaving the yard. The grade from the yard to the crossing is considerable and the two rear cars ran along as though they were connected with the train. The front section had gained considerable on the two rear cars and quite a space was opened up between them. When the first section stopped for the crossing, the caboose and car ahead of it came into it with a crash that resulted in the caboose and car being stood on end in the ditch. The wreckage was cleared away so that the regular passenger trains were not interfered with.

At the evening fair at Beloit entertainments of a high order will be given each evening in front of the grand stand, consisting of music and special features.

While You Sleep Your Profits Go On

While this is said of farming it is equally true of Life Insurance. If you invest money in a policy in the Aetna Life Insurance Company, this old saying will apply just as forcibly as it will about farming. If you are not in line for life or endowment, you may be for accident or health insurance. The Aetna Life is the largest company in the world writing these four branches of insurance. When in the market do not fail to "Come with us and we will do you good."

NEWS AND GOSSIP OF BADGER STATE

Reports of smallpox at Colby have been greatly exaggerated. There are two very mild cases here now under close quarantine. There were three held in quarantine until the patients were fully recovered and were then released and the houses thoroughly fumigated. The two cases at present are in one house and they are nearly recovered. A family brought it from Appleton, being assured by a physician there that the disease was nothing serious.

Mrs. Thomas Latimer, Genoa, had a thrilling experience with a large snake. She was at work in the kitchen, and entering the sitting room she was horrified to discover a large bull snake coiled up in a rocking chair. With rare presence of mind she picked up another chair and killed the reptile which measured over three feet in length.

The officers of the Racine Waterworks company have given a decision that religious organizations must pay for the water used. The franchise states that such institutions must give free service, but the water company contends that where more than one faucet is used the water must be paid for at regular rates.

Mrs. Nellie Adams the Racine woman who created considerable excitement by announcing that she is heir to \$500,000 left her by a rich uncle, has disappeared. She claimed while here that she married her husband, a carpenter, against the wishes of relatives, and that she came from a rich family.

All that is necessary to accomplish the investment of a million and a half of dollars by Oshkosh and Appleton capitalists in Mexico is the favorable report of a committee of examination. The project is to purchase a plantation in Mexico. The plantation comprises 5,000 acres and is situated upon the Isthmus. The company plans to raise rubber trees.

Hinrichsen Is Seriously Ill.
Jacksonville, Ill., Aug. 14.—William H. Hinrichsen, former secretary of state of Illinois and former congressman from the sixteenth district, is lying critically ill at his home in this city.

SELF SUPPORTING WOMEN

Cannot afford to be sick, they say. So, very often, they struggle along and keep up, where other women go to bed. To such women the value of Dr. Pierce's Favorite Prescription is beyond computation. It cures the common cause of ill-health in woman, derangement or disease of the womanly organs. A temperance medicine. It contains no alcohol, opium, cocaine, nor other narcotic.

"I had female trouble for eight years," writes Mrs. L. J. Dennis, of 838 East College Street, Jacksonville, Ill. "For three years I suffered continually. Words cannot express what I suffered. I sought relief among the medical profession and found none, until induced by kind friends to try Dr. Pierce's Favorite Prescription. When I began taking this medicine I weighed ninety-five pounds. After taking 'Favorite Prescription' I was built up until now I weigh one hundred and fifty-six pounds—more than I ever weighed before. I no longer have a pain in my lower part of my bowels, and such distress every month, but now I never have a pain—do all my own work, and am a strong and healthy woman. Thanks to your medicine. I consider myself a living testimonial of the benefits of your 'Favorite Prescription.'"

NEW SHORT STORIES

Looking For Ice Water.
At his morning service the pastor of a prominent church in Baltimore on a recent hot Sunday selected his text from a verse of Scripture relative to wells of everlasting life. Between the intense heat and the vivid pictures of cooling water drawn the one thought of the audience was an opportunity to get a cooling drink, and when at the end of the discourse the speaker announced that at the close of the service a supply

A PROCESSION STARTED FOR THE ICE WATER.

of ice water would be found in the room to his right many of the hearers felt their lives had been saved. In view of the fact that there were three rooms to the speaker's right the exact location of the water supply was a trifle vague, but as soon as the benediction was pronounced a procession led by an enterprising parishioner started in search of it. After much trouble and vain hunting it was found that the janitor had removed the water cooler to the main entrance of the church so as to have it handy for everybody.

Harry Lehr's Challenge to Mrs. Astor.
Speaking of Lehr, who came to New York poor, but tactful, and walked right into the Four Hundred, this amusing story is told of his first lift. He was the only outsider at this Four Hundred function, at which he was introduced to Mrs. J. J. Astor, and stood in the midst of a number of women who were enthusiastically admiring a white gown that she wore.

More to be kind than anything else she turned to the young man from Baltimore and said laughingly, "Does it please you?"

Now, if he had said "Yes" he wouldn't have attracted her attention in the least.

"I think it has its defects," he drawled quickly.

In that moment, if he had done nothing else, he had made an impression upon one of the leaders of society.

"You see," he continued slowly, while about him there was a gasp of consternation, "its lack of color does not do your complexion justice. Will you add this to your corsage and see the effect?"

He handed her a great red rose from a vase near by. Mrs. Astor happened to agree that he was right, and from no one in a single leap he became some one.—Boston Record.

Browning's Bulldog.

A new story of the poet Browning relates that at one time he had been given a pure blooded bulldog of a rare strain, of so fierce a disposition and so devoted to the poet's mother that it was unsafe for a stranger to shake hands with her in his presence. Browning himself was the only other person whom the dog would allow to touch him, but even when the poet was more familiar with his mother than the dog thought right he showed his teeth to him. They one day put him to a severe test, Browning putting his arm around his mother's neck as they sat side by side at the table. The dog went round behind them and, putting his feet upon the chair, lifted Browning's arm off her shoulder with his nose, giving an intimation that he would not permit any liberty of that kind even from him.

Wanted the Experience.

At the recent meeting of a London nursing association Canon Erskine Clarke told a story to illustrate his observation that one of the joys of childhood is to like many things that grown up people dislike. "I knew," he said, "a small boy who was found by the nurse sitting in the middle of a crowded street in Battersea and who said in answer to her inquiries, 'Please, I'm waiting to be run over.' That boy had heard of the delights of being in hospital."

A Day of Literature.

In an English blue book lately issued an inspector complains that many of the reading books used in elementary schools contain words and phrases far beyond the child's comprehension. "I found a boy," he says, "in a good school reading, 'And now another day of literature began to dawn upon the country.' I could not resist asking him the length of that day, when I got the answer, 'Twenty-four hours.'"

Liked the Samples.

An anecdote which is said to be characteristic of Yorkshire stories is that of a farmer who halted at a wayside inn and called for a quart of ale. He drank it off and called for a second quart. Drinking this, he called for a third quart, having drunk which he said: "T'at's varry fairish. I'll get down an ha' some."

FARM HAND HEIR TO \$11,000,000

Dakota Goes to Denmark to Secure a Great Fortune.

Deadwood, S. D., Aug. 14.—Peter Nelson Oagne, who has been working on a farm near this city for the last twenty-two years, has received word that he is heir to a fortune of \$11,000,000. His identity has been long concealed because he dropped his last name when he left Denmark for America. He has gone to Europe to take possession of his fortune.

Another Lucky Man.

Negaunee, Mich., Aug. 14.—Thomas Watts, a Cornishman, for twenty years a day laborer about the mines of this section, has received a legacy of \$250,000 by the death of a sister in Cornwall, and has left to arrange the probating of the will.

WELCOME AWAITS TEACHERS.

Superintendent Atkinson Plans Reception at Manila for Americans.

Manila, Aug. 14.—Superintendent of Schools Atkinson is preparing a reception for the 600 American school teachers who are expected to arrive here in a few days from San Francisco.

When the transport arrives fifteen launches will convey the teachers to the Luneta landing. Then they will be driven to the Spanish exposition buildings, which will become a temporary educational colony. The buildings have been completely furnished by the army with cots, chairs, etc., which have been loaned by the quartermaster's department.

THE OBITUARY RECORD.

Mrs. W. A. Potter Dead.

Kennebunkport, Me., Aug. 14.—Mrs. Potter, wife of the Hon. William A. Potter, former United States minister to Italy, died here last night.

Baron Nordenskjold Dead.

Stockholm, Aug. 14.—Baron Adolf Erik Nordenskjold, the arctic explorer and naturalist is dead. He was born in 1832.

Gives \$1,000,000 to Employees.

Colorado Springs, Colo., Aug. 14.—It has just transpired that a gift of over \$1,000,000, in which all the employees of the Rio Grande Western Railroad, from section foreman to executive officers shared, was made by General W. J. Palmer of this city when he sold his interest in the railroad a few months ago. He distributed 10,000 shares of the stock of the company, then at 104, the gifts ranging from that of Vice President Dodge, who received over \$100,000 worth of stock, down to single shares received by minor employees.

Roosevelt Starts for East.

Colorado Springs, Colo., Aug. 14.—Vice President Roosevelt spent the day nursing his cold at the home of Philip B. Stewart and started at night for New York city. He will return directly to his home instead of to Washington. His cold did not annoy him quite so much today. He was excused from several social functions during his stay here because of his indisposition.

Shooting Was Accidental.

Poughkeepsie, N. Y., Aug. 14.—That the shooting of Samuel Verplanck and Miss Laura Rankin, his wife's cousin, while driving near Fishkill Landing was purely accidental seems to be established. It appears they were wounded by stray shots fired by a laborer who was hunting squirrels. The wounds are not as bad as at first reported.

In Despair Kills Himself.

Chicago, Aug. 14.—Despondent because she had lost her position at the stockyards and was unable to secure another, Lola Hickens, 20 years old, committed suicide by asphyxiation in her room at 424 West Garfield boulevard. Her body was found lying on the bed, fully dressed, while gas was flowing from three gas jets.

CROKER IS TO COME SOON.

Expected to Sail for the United States About August 17.

New York, Aug. 14.—The Tribune's London representative says: "The villagers and tradesmen of Letcombe are confident that Richard Croker will remain at Moat house until the end of September, but his departure for America is not likely to be deferred more than a fortnight. One of his confidential advisers states positively that Mr. Croker will sail about the middle of August to take charge of democratic politics in New York. Mr. Croker delights to mislead every inquirer and keep his plans enveloped in mystery, but unless those usually in his confidence are deceived he will leave England about Aug. 17.

LAWTON GOES OIL CRAZY.

New Town, Mass. Has the Fever to a Degree That Looks Dangerous.

Fort Hill, O. T., Aug. 14.—About every fifth citizen of Lawton seems to be an oil promoter, and their number has been largely added to by the arrival of twenty "oil experts" from Beaumont, Tex.

The excitement is not confined to any particular district. Evidence of oil can be found in all directions, but what is known as the oil district is about eleven miles north of Lawton.

Oil locators have plastered the entire country with mineral claims, and an Ottumwa (Iowa) company has 2,000 acres staked in one body.

BOYS SAY THEY SLEW A TIGER.

Report Having Killed the Animal on an Island in the Kankakee.

Kankakee, Ill., Aug. 14.—This town is somewhat excited over a story brought in by Joe Gregoire, 17 years old, and Joseph Le Brun, Jr., about the same age, that they killed a six-foot tiger on a small island in the Kankakee river, five miles from this city. The boys started plover shooting and rowed to the island, where they saw an animal lying in the grass close to the water's edge. Gregoire says and

his companion quarreled over the skin. Gregoire returned to camp and when he went back to the island the beast's carcass had disappeared.

WEALTHY CATTLEMEN MISSING

Joseph Hartzel May Have Been Murdered in Colorado.

Buena Vista, Colo., Aug. 14.—Joseph Hartzel, a wealthy cattleman living on a ranch east of here, is missing, and it is believed he has been murdered. He was in the habit of carrying large sums of money on his person.

His horse was found tied to a post near a stream, where it had evidently been for several days. Near by are evidences of a struggle having taken place. Large rewards have been offered for Hartzel's discovery.

On the Trail of the Benders.

Port Collins, Colo., Aug. 14.—Frank Ayres, formerly a resident of this place, who claims that his wife is Kate Bender, arrived here today and immediately started for the mountains, as he said, to secure more evidence against the alleged Benders. He was accompanied by two men, who are supposed to be detectives from Kansas. They will go into the Lone Pine country, and Manhattan, to trace up the whereabouts of John Lavin, who was once married to Mrs. Ayres. It is said that Mrs. Ayres says that Lavin is dead, but Ayres claims to have information that he is located in Colorado. Lavin, so Ayres says, has in his possession some keepsakes that belonged to the Bender family.

Close the State Treasury.

Austin, Tex., Aug. 14.—The state treasury was closed today by order of the legislature while a committee is counting the money placed there. This action is one of the incidents caused by the failure of the First National bank of Austin, where some of the state funds were on deposit.

Contractor John Peters will begin laying the heavy stone for the foundation of the soldiers' monument tomorrow.

and all seasonable goods at that; all to be closed out. For the little Miss you can find a variety from 90c to \$1.25. And for the "manly" little boy—just like papa's—we have a big variety from \$1.10 to 1.45. For women and for men our range is so immense it would be impossible to convey here an adequate idea, without showing you the many styles. From 1.25 to 3.00 to \$3.50 the prices run and they include everything to-day that brings comfort and style to your feet. Get in the right place.
